

Announcement: Calbee Publishes Integrated Disclosure Aligned with the TCFD and TNFD Frameworks

Calbee, Inc. ("Calbee") announced today that it has published the English-language version of its disclosures aligned with the Taskforce on Nature-related Financial Disclosures (TNFD)¹, which were originally released in Japanese on October 9, 2025.

Calbee is working to create "social value" by addressing environmental and social issues while also generating "economic value" to grow its business. At the core of this effort is Calbee's commitment to sustainability management, which aims to help realize a more sustainable society.

As a company deeply connected to agriculture, Calbee considers the conservation of natural capital a critical priority. Because natural capital and climate change are closely interlinked and influence one another, Calbee has organized its disclosure to incorporate the perspective of the Task Force on Climate-related Financial Disclosures (TCFD)².

Calbee has also updated its sustainability website in English.
